PROFILE

I am passionate towards Software Engineering and I love to be a part of competitive Programming and Software Development.I develop my skills by working on different new projects.
- **Competitive Programmer & Web Developer**
- **Completed 250+ problems in different Platforms like Codechef,Leetcode,geeksforgeeks and codforces.**
- **AI Enthusiast.**

PROJECTS

Weather-App 🔗
- This a Single page web applications which prodcasts the weather of a particular country or location.
- Here in this project I used **openweathermap API** to get location weather details.
- This is developed by using ReactJs and CSS.

Portfolio 🔗
- This is a web application where it shows all of my abilities and skills.
- In this Application you can find what projects I worked so far and visit all my social media profiles and we can be in touch by contact section in this application.
